

Wave Invader Bodyboards

Intelligent Design

Heavy duty 8lb high density Crosslink PE deck skin for extra strength, durability & traction. The concave deck hugs the body creating a lower centre of gravity, connecting you more to the wave.

6lb high density Crosslink PE bottom
The perfect balance of speed, strength & stability.

V hull with a sharp nose : cuts through water with greater manouverability and stability to handle easier in all conditions

One Size Fits All. Big or Small. Beginner or Experienced. Great for the Whole Family
3 Colours, Sky Blue, Red, Green

- XPE Concave Deck
