WAVE INVADER

- PE Concave Deck • PE V Hull Bottom
- High Density EPS Core • Heat Lamination Manufacturing Process

CLASSIC 4LB 4mm CXL
PREMIUM 8LB 5mm IXL
High density crosslink PE concave deck.
Hugs the body creating a lower
centre of gravity, connecting
you more to the wave.

6LB 4mm high density crosslink PE bottom.
The perfect balance between speed,
strength & stability.

V hull with a sharp nose. Cuts through water with
greater manouverability and stability in all conditions.
